LOCALETS

During the past week more than two hundred thousand dollars was robbed out of the Canadian West by thugs operating from across the U.S. line. \$75,000 was robbed from the Vancouver city paymaster just in front of the city hall near noon. \$113,000 was taken from a bank at Melita, Man. Two other bank robberies, Moosimin and Ceylon, netted the thieves about another twenty thousand. In not one of the many recent serious robberies have the police discovered any clue or effected any recovery, though the public is assured that extra precautionary methods are now being organized. We have not heard of them trying to rob any country printing offices.

O. R. Olson has become established himself in overland freighting, taking Dr. Walkey's effects to Pincher Creek. If he were to start out to move all those who have signified such desire, he indeed would be a busy man.

Dr. Walkey and family left by motor on Sunday for their new home at Pincher Creek.

Mr. and Mrs. H. E. Elves and Bruce motored to Calgary on Friday to establish themselves in their new home. Mr. Elves has considerable work to wind up at Lomond before closing his office for the winter and expects his clients to find him on duty at the old stand.

R. H. Hughes is discovering that the packing of his drug is more of a job than one would anticipate and the job is holding him over an extra train day.

Official notice has been served upon all whom it may concern that no relief will be given during the coming winter to single men and only in cases of bona fide residents of a year's standing in the case of married men. Fortunately the need is not going to be so apparent next winter, as the unemployment situation is steadily improving. The lumber camps and coal mines are taking up a good many men. Both these industries are booming.

Bobby Newton is recovering from an attack of appendicitis.

Andy Tulloch is confined to his bed for a few weeks, suffer-

ing from an obstructed vein in one of his legs.

Lomond was well represented at the Milo dance on Friday night and everybody appears to have had a wonderful time.

It is said that the six grain elevators at Cluny are congested with wheat. Ancient history tells of the same conditions prevailing at Lomond. Most of us here have gone broke waiting for history to repeat itself.

Lomond celebrated Fire Prevention Week with the first fire scare for a long time. On going home about ten o'clock

Monday evening Cap Calkins discovered a fire burning on the work bench in Manning's blacksmith shop. Quickly spreading the alarm a crew with hand chemical extinguishers quickly mastered the situation and the town of Lomond still maintains an almost fire-free record. The origin of the fire cannot be explained.

The fire scare prematurely ended the Chautauqua meeting. The 1922 committee reports a shortage of \$7.00 in its expense account, though three or four of the guarantors have not yet honored their signatures and paid in their share of the general deficit along with the rest

of the men. The executive of the 1923 committee was elected as follows:

W. A. Teskey, chairman.
L. H. Phillips, secretary.
H. Erskine, treasurer.

Scientists tell us that there are twenty-seven muscles in a man's brain. But, judging by results, not many of us men seem to know anything about it.

As soon as this war scare is over we'll hear some more of the Irish question.

HUNTERS FLOCK TO BRITISH COLUMBIA

Byron Harmon of Banff, Alta. brings down his goat after a long chase and stiff climb

Rocky Mountain Goat
He looks lary, but oh, how he can travel

Seventy-Six Year old hunter and Indian guide hunting in Cassiar District in B.C.

BRITISH Columbia offers the best still remaining, easily accessible big game hunting territory on the continent. It is not necessary to go far afield from the railway and some of the best hunting grounds are as follows: Beginning at the east, there is the East Kootenay district, reached from Invermere. Two ranges may be hunted here; in the Rockies on the east are to be found moose, mule and whitetail deer, mountain goat, mountain sheep, grizzly, cinnamon and black bear, while among

the Selkirk on the west, are caribou, mule and whitetail deer, mountain goat, grizzly, cinnamon and black bear. Very satisfactory wild fowl shooting may be enjoyed on the lakes and flats in the late fall.

Deer, grizzly and black bear, caribou and goat are found in the country around Chase. Deer are found from 4 miles of the town; bear from 20 miles; caribou beyond the 30 mile mark, and goat from 30 miles. Excellent game bird shooting is to be had here, includ-

ing ducks, geese, pinnated and ruffled grouse, with some snipe and plover at various points.

Kamloops is the gateway to a rich sporting region where goats, brown, cinnamon, black and grizzly bear, small deer, moose and occasional caribou and sheep (3 varieties) are to be found. From here expeditions to the Fort Fraser country may be arranged—including about 176 miles of canoeing—where deer, bear and other large game may be shot.

A hunting area rapidly growing in favor is the Caribou District, reached from Ashcroft. It is off the beaten path, therefore big game is plentiful, and includes grizzly, black and brown bear, moose, caribou, goat and sheep. Fishing for gamey trout is another attraction of this region.

Of course the Cassiar District to the north stands in a class by itself, for the cost of a hunting trip there prohibits a great influx of hunters, insuring good bags for those who hunt there. Thirteen hunters taken in by Frank Callbreath, the outfitter at Telegraph Creek, in 1921, shot 11 moose, 22 caribou, 21 goat, 22 sheep and 20 bear, ten of which were grizzlies.

Industrial Progress in Alberta

Two announcements of much importance to Alberta have been made recently. One is that the Research department of the University of Alberta has found a process by which a large proportion of the sand in the Athabasca tar sands can be removed, and the bituminous tar residue becomes a commercial commodity for shipping and ready use for road making and other purposes. The other announcement is that American capital has been secured to open and develop the Butterfield iron ore deposits discovered about a year ago on the shores of Lake Athabasca. In the development of Northern Alberta both these matters are of great importance. If the tar sand products can be put upon the market at a reasonable price, the field for their use is unlimited. If the iron ore is in Alberta in large quantities, this, together with the proximity of coal, as we have it, always forms a nucleus of a large industry.

What the U. G. G. Co. Says About the Cattle Market Situation

The U. G. G. Livestock Dept. reports as follows:—A good many farmers and stock raisers at the present time, who have not sold their surplus stock, are wondering what effect the new United States tariff regulation will have on the livestock trade. With the duty being increased approximately from 50 to 75 cents per hundred pounds, (the old tariff was based on a straight duty of 30%, whereas the new tariff calls for one and a half cents per pound on cattle up to 1050 pounds and two cents per pound on those over that weight) we would naturally assume that with American markets practically setting the price on our stocker cattle that they would depreciate at least the value of the extra duty. After considerable thought and investigation, we do not believe we are justified in taking too pessimistic a view of the situation. The material improvement in the feed situation in various parts of the Province during the past month, enquire from Ontario for stocker cattle and a possible strengthening of prices across the line, lead us to think that very little change in price will be noticeable. Eastern packers are buying heavily on Western markets, showing that supplies in their own districts are somewhat limited. Considerable thought is also being given to the possibility of stocker cattle being shipped to the Old Country, and while transit expenses at the present time look prohibitive, any prospect of lower rates would be immediately reflected here. Summarizing the situation we would strongly advise livestock raisers to fully post themselves on market conditions, as thousands of dollars have been lost to the raisers during the past few months for lack of this knowledge.

Manitoba and Saskatchewan have suffered further serious bank robberies.

Arrangements have been made to hold the annual Red Cross drive for membership in this province from November 5 to 11. Thousands of workers will start out on the first morning of the campaign in the various districts of the province and the objective will be as nearly 100 per cent of the residents of Alberta as can be enrolled.

The Red Cross has been doing a wonderful work since the war which is plainly evident on every hand. This work must be carried on as there is still plenty yet to do. Funds are the one essential in a work of this kind, and the object of the campaign is to raise enough money to tide the Red Cross of Alberta over for another year. At present there are 115 locals of the association in Alberta and in addition there are 88 active Red Cross committees. It is these locals and committees that will carry on the campaign for members, assisted in every possible way by the Alberta Headquarters in Calgary. But these branches cannot cover every district in the province, and so arrangements are being made to organize another 200 working committees for the campaign. It is hoped to enrol fifty thousand senior members for this year and forty thousand junior members. The fee is \$1.00 for seniors and 25 cents for juniors. The campaign this year is to be a financial one as well as a membership drive as a large sum of money is required, and so every person will be asked to give until it hurts.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, **GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.**

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds **AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th**, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

Railway News

Prescott.—On retiring on pension, after over 49 years in the service of the C.P.R., Edward Pumble was given a purse by his associates at Prescott.

Lindsay.—The park at the C.P.R. station was laid out a few years ago and is to-day a veritable bower of beauty. Rare taste and originality has been displayed in its upkeep, and the many who have admired it express regret that Lindsay has not a few more parks of this nature.

Vancouver.—The Canadian Pacific Railway Company is calling for tenders for the superstructure of the new pier which the company is constructing here for the accommodation of its ocean liners. The foundation fill for the pier is already in place. The new work will give employment to several hundred men for approximately 12 months. This is the largest work undertaken in several years in Vancouver by the Canadian Pacific Railway. The pier will be 850 feet long and 330

feet wide and its estimated cost is about \$2,000,000. It is proposed to have it completed by September 30, 1923. Tenders are to be in by July 17.

Fort William.—One of the finest mementoes of the recent visit to the head of the lakes and of the points of His Excellency the Governor General of Canada, Lord Byng of Vimy, and Lady Byng, is possessed by A. A. Smith, trainmaster, Canadian Pacific Railway, in the form of a gold and enamel scarf pin presented to him by the Governor-General. The gift was made to Mr. Smith as a token of appreciation of the splendid arrangements made by him for the comfort of the Governor-General's party during their railroad journey from Fort William to Kenora.

Montreal.—Mr. Alfred Price, General Manager, Eastern Lines, Canadian Pacific Railway, after over forty years of faithful and most efficient service, upon the advice of his physicians, and to the great regret of all, finds it necessary to relinquish his duties for an indefinite period. Mr. Price has, therefore, been granted extended leave of absence.

Mrs. and Mrs. Jos. Wright drove over from Bassano on Sunday last, spending the day with the editor and family. They were accompanied by Miss Wilson, who spent the day with her sister, Mrs. (Dr.) Walkey.

The people's shattered nerves have been given a severe test during the past couple of weeks as there have been nine days of heavy southwest wind during that time. It's a mystery to us how they store so much restless air over in that southwest part

of the country.

Lomond became a bit excited when a report was received that war had actually been declared against Turkey. It is a pleasure to report that the war clouds have drifted by and that the chances for a break are becoming very remote. Those eighteen inch guns of the British navy must have looked too business-like to the Turks.

The Canada postal authorities have announced that in the future Canada will revert to a two-cent stamp for letter postage. Another announcement that is now in effect is the removal of all elements of exchange both in the purchase of Canadian money orders payable in the States and in the cashing of United States money orders in Canada. It goes to show that insofar as money is concerned Canada is back to normal.

W. H. Smith and wife motor-ed to Lethbridge on Thursday.

Jas. McNaughton of Carman-gay gave this office a friendly call while in town the other day. "Jim" still likes to talk politics.

Mr. McKeracher has been sent to this district to protect the government's equity in this part of the country as established through the medium of seed grain and relief advances. Needless to say, his collections

are not ponderous.

A banquet table set to accomodate nearly a hundred people was fully occupied on Wednesday evening when people of Lomond and district assembled to do honor to Dr. and Mrs. Walkey and Mr. and Mrs. R. H. Hughes, who are departing for new homes at Pincher Creek and Claresholm respectively. The tables were artistically arranged and sumptuously laden so that everybody was in a state of comfortable rotundity when the chairman of the, graces introduced the program. There were vocal selections by Mrs. Dilley, Mrs. Hamilton, Miss Pederson, Miss Bar, T. Vickers and J. H. T. McLean. D. C. Towers rendered a couple of selections on the bagpipes and Miss Pederson an instrumental piano selection. Mr. Forster and Mr. Westgate addressed the assemblage with remarks inspired by the occasion and fitting replies were made by the guests of honor. After the formal occasion was concluded a very pleasant time was spent in dancing.

EASY TO CONVERT

One of the measures adopted by the Finance Department to bring the conversion proposals, which are now being widely advertised, to the attention of holders of 1922 Victory Bonds was the mailing to registered holders of a copy of the Minister's announcement. Over 100,000 bond holders were communicated with. Replies were not called for, as those who wish to continue their investment are asked to surrender their bonds to any branch of chartered bank signifying the maturity of the new bonds desired and obtaining receipt on the official form provided. Nevertheless there have been many replies. Everything has been so satisfactory that I would like the investment to continue," wrote one holder and there have been many letters of like tenor from persons who became investors in bonds for the first time in 1917.

EYREMORE CIRCUIT

Eyremore Circuit is arranging to hold anniversary services on Sunday, Oct. 29th., the speaker for the day being Rev. Chas. G. Hoekin, B. A., B. D., of Bow Island. Mr. Hoekin is one of the younger Methodist ministers of Alberta Conference, of good standing and approved ability, and inspiring messages may be looked for from him. The appointments are preparing to hold chicken suppers the same as last year. You will have no difficulty in learning the date later, as everybody will be talking about the affairs. But be sure and swell the attendance at church on October 29th.
